

Plan Space

Discover the strategies behind the planning of well-designed and sustainable HDB towns. Be captivated by a variety of interesting interactive and tactile exhibits, such as digital maps, video shows, and 3D models.

Eco Space

Learn about the smart and sustainable features that create a more liveable environment in HDB towns. Get up close to our latest urban innovations and sustainability solutions, such as floating wetland systems to intensify greenery, dual bicycle racks to facilitate cycling, and the use of Prefabricated Prefinished Volumetric Construction (PPVC) to improve productivity.

Create Space

Understand the key policies that have transformed our living conditions from slums to the vibrant and endearing homes of today. Explore the wide range of housing options available that cater to Singaporeans' different budgets and life cycle needs.

Discover also how Toa Payoh town – Singapore's first satellite town planned and built by HDB in the 1960s – has been revitalised over and over again through various rejuvenation programmes to keep pace with the needs of residents.

Share Space

Learn about our programmes and policies to promote cohesive communities in our towns, and relive fond memories of your childhood at our iconic Dragon Playground.

Future Space

Step into the future and discover the upcoming plans for new housing estates at Punggol Point, Tengah and Tampines North. Also, uncover the layers behind the planning of Tengah, our youngest HDB town.

LIVINGSPACE is located at HDB Hub Level 1, and is open from Monday to Saturday, 8:30am to 5:00pm. Admission is free.
